

THE WORKING PERSON'S STABILITY CHECKLIST

A practical self assessment for people who are tired of feeling like they are working harder every year but getting no further ahead.

=====

BEFORE YOU START

This checklist is not about being perfect.

It is about identifying small areas where you can improve your health, finances, and future options over the next 12 months.

Check every box that is already true.

Circle the ones you want to improve first.

=====

HEALTH

- ☐ Drink water more often than soda or energy drinks
- ☐ Walk at least 15 minutes most days
- ☐ Get annual bloodwork and a physical
- ☐ Prioritize sleep whenever possible
- ☐ Know your current weight
- ☐ Take basic supplements consistently
- ☐ Track your energy levels weekly
- ☐ Reduce one unhealthy habit this month

Score: ____ / 8

=====

FUTURE OPTIONS

Most people focus only on earning more money.

Few people focus on creating more options.

The goal is not to quit your job tomorrow.

The goal is to create enough flexibility that a setback, emergency, layoff, illness, or unexpected expense does not completely derail your life.

Ask yourself:

- ☐ Do I have a skill I could earn money with outside my job?
- ☐ Do I have a second source of income?
- ☐ Do I have a network of people who can help me find opportunities?
- ☐ Am I learning anything new each month?
- ☐ Could I handle a \$1,000 emergency today?
- ☐ Could I handle three months without income?
- ☐ Am I actively building something for my future?
- ☐ Do I have a written plan for the next 12 months?

Score: ____ / 8

=====

YOUR RESULTS

Health Score: ____ / 8

Money Score: ____ / 8

Future Options Score: ____ / 8

Total Score: ____ / 24

20-24

Strong foundation. Continue building.

14-19

Good progress. Focus on weak areas.

8-13

Several opportunities for improvement.

0-7

Time to create a simple plan and start small.

=====

Remember:

Small improvements repeated consistently often outperform big plans that never get started.

One step at a time.

=====

YOUR NEXT 30 DAYS

Pick one action from each category.

HEALTH

- ☐ Drink more water
- ☐ Walk daily
- ☐ Improve sleep

- ☐ Create a 12 month plan

MY CHOICE:

=====

FINAL THOUGHT

Most people do not need a miracle.

Most people need a plan.

Small actions repeated consistently can completely change the direction of a life over time.

Keep moving forward.
